

Installing the Browser Recorder Extension

Prerequisites

The Browser Recorder requires using the Firefox Browser

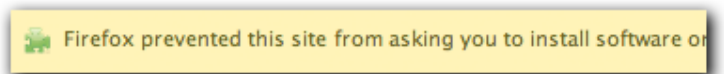

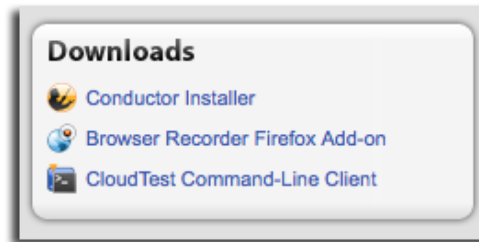

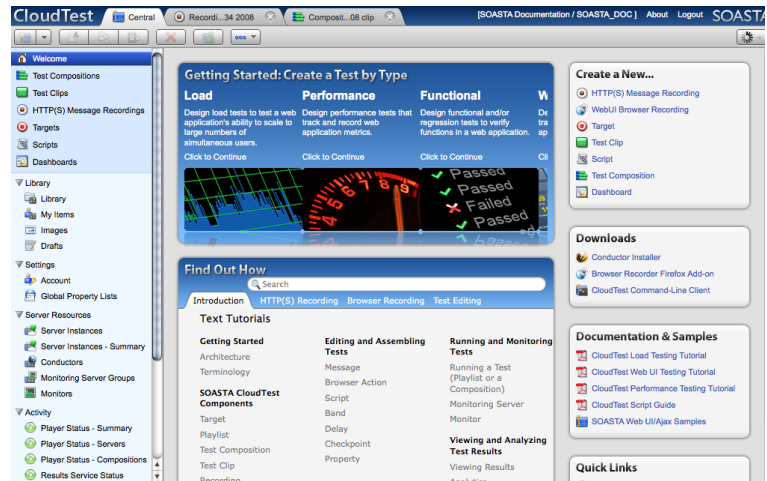

Installing the Browser Recorder Extension involves the following steps:

1. Go to the SOASTA Central Welcome page

2. Click on the "Browser Recorder Installer" option under "Download"

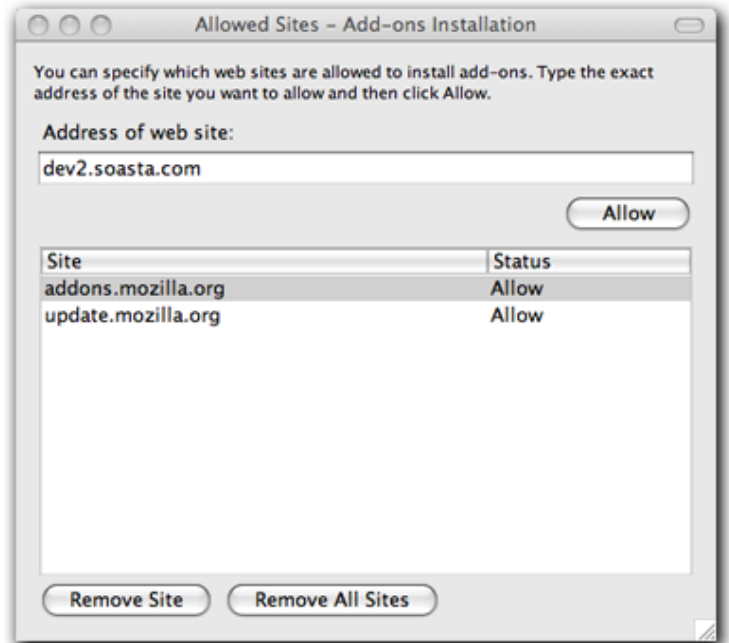

You will see the following warning in your Firefox Browser

3. Click on the "Edit Options" button

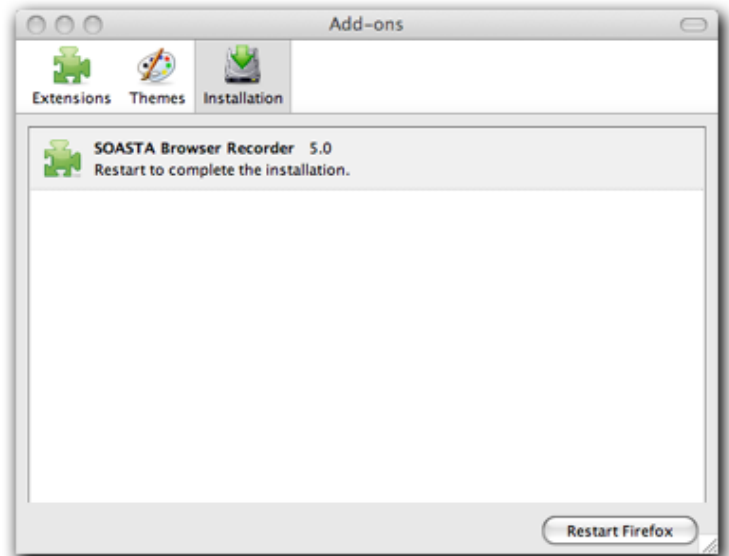

The following dialog will appear:

4. The Allowed Sites – Add-ons Installation screen will be displayed. It gives you a drop down menu to specify which Web sites you want to install as add-ons. Choose the appropriate Web site (addons.mozilla.org in this case), and click on the “Allow” button.

The Add-ons screen will be displayed.

5. Click on the “Restart Firefox” button. Firefox will close and reopen with the Browser Recorder Extension installed.

A drop-down menu will appear confirming your installation choice.

6. Click on the "Install Now" button.
