TouchTestable Mobile Apps

SOASTA provides the following touchtestable mobile apps for the convenience of developers and testers who need to quickly use them in test compositions.

Stockfish TouchTestable App

The Stockfish touchtestable mobile app is our version of the popular chess app provided as an Xcode project. This source project can be retrieved using the git command or via the GitHub application.

Use the following link to retrieve the Stockfish touchtestable mobile app:

https://github.com/elitecoder/stockfish-touchtest

For example, using git (where git is in the path) in Terminal:

```
git clone https://github.com/elitecoder/stockfish-touchtest
```

Once the project is retrieved, the cloned folder has the following contents.

Name	Date	Size	Kind
▼ 📁 stockfish-touchtest	Today 9:16 AM	--	Folder
📄 .DS_Store	Today 9:16 AM	6 KB	Document
▶ 📁 .git	Today 9:15 AM	--	Folder
▶ 📁 build	Today 9:15 AM	--	Folder
▶ 📁 Chess	Today 9:15 AM	--	Folder
▶ 📁 Classes	Today 9:15 AM	--	Folder
